Journal of the American Foundrymen's Association.

INDEX—VOLUME X.

I	Abendroth & Root Mfg. Co.: Titanium Experiments, .	54
III	Adams, Charles Francis: Remedy for Strikes,	33
III	Adams Co., The: Oil Matches,	60
II	Address of Welcome, Mr. Letchworth's,	3
II	<i>Age of Steel</i> ,	61, 163
III	Agreement, foundry,	23
II	Agricultural Castings, melting loss in cupola process for,	53
III	Air to melt iron	18
II.	A. F. A. Benefits as received by an outsider,	35
II	A. F. A. Officers for 1901-1902,	68
II	A. F. A. Proceeding of the Sixth Convention,	3
III	<i>American Institute of Mining Engineers</i> ,	38
III	<i>American Machinist</i> , . . . 3, 13, 24, 33, 35, 36, 43, 45, 50, 57, 61	
III	<i>American Manufacturer</i> ,	9, 49
I	Analyses, furnace,	89
II	Analyses, standardizing methods of,	20
III	Anthracite as a cupola fuel,	7
I	Apprentices, foundry, what can we do for,	141
I	Apprenticeship in foundry,	33
III	Apprenticeship in foundry,	37
III	Arbitration v. Conference	36
III	Arnold, Prof.: Properties of steel castings,	47
III	Ashley, H. E.: Sampling pig iron,	8
III	Baby Bessemer process in foundry,	34
III	Bangartner, L. F.: The Core Maker,	7
II	Beckett, Jas. A.: Discussion on grading pig iron,	92
II	Bell, C. S.: Discussion on the Molder Question,	117
II	Bell, C. S.: Response to Buffalo's Welcome,	5
III	Blair & Shimer: A crystalline sulphide in pig iron,	38
II	Benefit of the A. F. A. as viewed by an outsider,	35
III	Bessemer Process, Baby, for foundry,	34
III	Bettering the work of the foundry,	66

15671

II.

III	Blast furnace compared with cupola practice,.....	69
III	Brabrook, G. H.: On soft metal castings,.....	57
III	Brass and bronze castings, manganese in,.....	10
III	Brass castings, thin,.....	61
III	Brass foundry, fitting up a,.....	50
III	Brass foundry, repairing samples in,.....	41
I	Brass melting,	71
III	Breaker for castings,.....	45
III	Brinnell: Hardness tests,.....	5
III	Bronze and brass castings, manganese in,.....	10
II	Brown, Willis: Discussion on grading pig iron,....	95
III	Buchanan, Geo.: Machine molding,.....	3
III	Buchanan, Robt.: Management of foundry cupola,...	42
II	Buffalo Convention, proceedings of,.....	3
III	Carronades,	62
III	Car wheels, cast iron,.....	63
II	Car wheels, melting loss in cupola process for,.....	154
III	<i>Cassier's Magazine</i> ,.....	32, 51, 62
III	Casting breaker, a,.....	45
III	Casting lead,.....	47
III	Castings, direct metal for,.....	58
I	Castings, famous,.....	31
III	Castings, gray, German specifications for,.....	14
III	Castings, light, in England,.....	24
III	Cast iron car wheels,.....	63
I	Cast iron, effect of titanium on,.....	45
I	Cast iron, effect of variations in managenese on,....	75
II	Cast iron, standardizing testing of,.....	23
II	Cast iron, standard specifications for testing,.....	30
III	Cast iron, testing,	56
III	Castle: On arbitration versus Conference,.....	36
III	Centering core pipes,.....	57
I	Centrifugal casting,.....	20
I	Charcoal versus coke irons,.....	95
III	Chemico-technical laboratory,.....	55
III	Chemistry in the foundry,.....	9
I	Classification of patterns,.....	103
I	Coke versus Charcoal Irons,.....	95

III.

II	Colby, A. L.: Discussion on influence of titanium on cast iron,.....	103
II	Colby, A. L.: Discussion on manganese in cast iron,.	106
II	Colby, A. L.: On the grading of pig iron,.....	78, 88, 90, 97, 141
III	Colby, A. L.: Machine cast foundry pig iron,.....	29
III	Columns, German specifications for,.....	15
I	Combustion. Paper by J. G. Sadlier,.....	127
II	Committee on Constitution, report of,.....	16
II	Committee on Standardizing Bureau, report of,.....	19
II	Committee on Standardizing Testing of Cast Iron,....	23
III	Conciliation in the British iron industry,.....	39
III	Conference versus Arbitration,.....	36
I	Conlin, F.: Insuring patterns,.....	99
II	Constitution, Committee on, report of,.....	16
II	Constitution of the American Foundrymen's Association,	44
I	Control of the foundry,.....	41
III	Convention, proceedings of the sixth.....	3
III	Cook, E. S.: Blast furnace compared with cupola Practice,	69
III	Cope guide,	8
III	Core pipes, centering,.....	57
III	Cores for steel castings,.....	9
I	Cores, green sand,.....	37
III	Core maker, the,.....	7
II	Cost of castings,.....	156
I	Costs, foundry,.....	13
III	Cottrell & Sons Co., rubber patterns at,.....	24
I	Crobaugh, F. L.....	83
I	Crucibles for brass melting,.....	72
III	Crucible, graphite,	53
II	Cunningham, R. C.: Discussion on foundry costs,.	143
I	Cunningham, R. C.: Foundry costs,.....	13
III	Cupola compared with blast furnace practice,.....	69
III	Cupola construction and management,.....	17
III	Cupola, management of,.....	42
III	Cupola practice,	67
III	Cupola practice, modern,.....	62

IV.

II	Cupola process, melting loss in,.....	147, 156
III	Cupolas, explosions in,.....	38
I	Curbing,	9
I	Diller, H. E.,.....	83
III	Direct metal for casting,.....	41, 58
II	Discussion on S. H. Stupakoff's paper on the molding machine,	129
II	Discussion on foundry costs,.....	143
II	Discussion on foundry schools,.....	60
II	Discussion on the problem of the molder,.....	129
II	Discussion on the control of the foundry,.....	119
II	Discussion on the grading of pig iron,.....	75, 138, 163
II	Discussion on the influence of manganese in cast iron,.....	106
II	Discussion on the influence of titanium on cast iron,.....	102
II	Discussion on the molder question,.....	108
I	Dry sand vers. green sand cores,.....	38
I	Economic status of wages,.....	55
I	Economy, foundry, by Dr. R. Moldenke,.....	160
III	Economy, foundry.....	22
I	Effect of variations in manganese on cast iron,.....	75
III	<i>Eisenzeitung</i> ,	10, 11, 34, 53, 55, 56
III	Employees as stockholders,.....	21
I	Employer and employed, relative position of,.....	168
III	<i>Engineering</i> ,	9, 47
III	Enameled surfaces, patching,.....	37
III	Engineer and the foundry, the,.....	40
III	<i>Engineering and Mining Journal</i> ,.....	16, 58
III	<i>Engineering Magazine</i> ,.....	66
III	England's light casting industry,.....	24
I	Equipment of foundry,.....	1
III	European and American cast iron, relative hardness of,	35
III	Explosions in cupolas,.....	38
I	Famous castings,	31
III	Fawcett, W.: On cast iron car wheels,.....	63
III	Fay, A. C.: Centrifugal casting,.....	20
I	Ferro-titanium, use of, in the foundry,.....	54
II	Field, H. E.: Discussion on grading pig iron,.....	163
I	Field, H. E.: Foundry metallurgy,	87

V.

III	Field, H. E.: Foundry metallurgy,	18
III	Field, H. E.: Sampling and grading pig iron,	15
III	Finance in foundry management,	19
III	Findley, A. I.: The position of the foundry industry,	65
II	Floor plates, etc., melting loss in,	154
III	Foundry agreements,	23
I	Foundry apprentices, what can we do for,	141
III	Foundry apprenticeship,	37
III	Foundry, chemistry in,	9
I	Foundry, control of,	41
II	Foundry costs,	156
I	Foundry costs,	13
I	Foundry cranes,	2
I	Foundry design,	2, 5
III	Foundry economy,	22
I	Foundry Economy, by Dr. Richard Moldenke,	160
III	Foundry industry of Scotland,	61
III	Foundry industry, the position of the,	65
III	Foundries in the Philippines,	49
I	Foundry iron problems,	94
III	Foundry management, fiance in,	19
I	Foundry manager, requisites of,	42
I	Foundry metallurgy,	87
III	Foundry metallurgy,	18
I	Foundry metallurgy, advancement of,	90, 94
III	Foundry office, :	6
III	Foundry Trade School, a,	27
I	Foundry Trade School, the proposed, by Thos. D. West,	154
II	Foundry Schools, discussion on,	60
I	Foundry, the; its equipment and management,	1
III	Foundry work, bettering,	66
III	Fracture, selling pig iron by,	46
III	Fuel, anthracite as a cupola,	7
I	Furnace analyses,	89
III	German specifications for gray iron castings,	14
I	Gilmour, E. B.: Employer and Employed,	168
I	Gilmour, E. B.: The Foundry,	1

VI.

II	Grading pig iron by analysis,.....	51
II	Grading pig iron, discussion on,.....	75, 163
III	Graphite crucibles,.....	53
I	Green sand cores,.....	37
I	Green sand versus dry sand cores,.....	38
III	Grimshaw, Robt.: Centering core pipes,	57
II	Groves, S.: Discussion on the molder question,	110, 115
III	Guide for copes,.....	8
III	Hamilton, J. B.: Cores for steel castings,.....	9
II	Hansen, H.: Discussion on the problem of the molder,	134
III	Hardness test,.....	5
III	Hardness of American and European cast irons,.....	35
I	Hardness tests, Mr. West's,.....	75
III	Horner, Jos.: Machine molding,.....	32
III	Industrial betterment,.....	51
II	In Memoriam, John S. Sadlier, president of the A. F. A.	155
III	Inspection of pattern work,.....	43
I	Insuring patterns,.....	99
I	Insuring patterns, recommendations for,.....	106
III	International Association for testing materials,.....	5
III	<i>Iron Molder's Journal</i> ,.....	8
II	Jewett, L. C.: Discussion on the problem of the molder,	135
III	Jewett, L. C.: Straight castings from crooked patterns	13
II	Jobbing foundry, melting loss in cupola process for,	148, 149
II	Jones, W. A.: Discussion on the molder problem, ..	116
II	Jones, W. A.: Election as honorary member,.....	73
II	Jones, W. A.: President's report,	6
II	Keep, W. J.: Discussion on the grading of pig iron,	138, 142
III	Kirk, Dr. E.: Anthracite as a cupola fuel,.....	7
I	Krenzpointer, P.: Foundry apprentices' schooling, ..	141
I	Laboratory, introduction into foundry,.....	87
I	Laboratory, relation of, to foundry,.....	19
II	Lanigan, J.: Discussion of the molder problem. ..	113, 114

VII.

III	Lead founding,.....	47
II	Letchworth, O. P.: Address of welcome,.....	3
I	Lifting heavy molds,.....	8
III	Light casting industry of England,.....	24
I	Locomotive stack, green sand core for,.....	37
III	Longmuir, Percy: Bettering foundry work,.....	66
I	Longmuir, Percy: Control of the foundry,.....	41
II	Longmuir, Percy: Discussion of control of foundry,	119
III	Longmuir, Percy: Foundry economy,	22
I	Longmuir, Percy: Relation of laboratory to foundry,	19
III	Longmuir, Percy: The foundry office,.....	6
III	Machine molding,.....	3, 32
III	Machine cast pig iron,.....	29
III	<i>Machinery</i> ,	18
II	Machinery castings, melting loss in cupola process for,	150, 151
III	Malleable castings in Europe,.....	11
III	Malleable cast iron,.....	68
I	Management of foundry,.....	1
III	Management of foundry cupola,.....	42
I	Manager, foundry; requisites of,.....	42
I	Manganese, effect of variations on cast iron,.....	75
I	Manganese, effect on cast iron,.....	83
III	Manganese in brass and bronze castings,.....	10
III	Manufacturers, organization of,.....	23
II	Marshall, S. P.: Sliding scale for grading iron,.....	55
II	Marshall, S. P.: Discussion on grading pig iron,.....	101
III	Matches, oil,.....	60
III	May, W. J.: Keeping samples in the brass foundry,..	41
II	McPhee, H.: Discussion on the molder question,...	113
III	<i>Mechanical World</i> ,.....	41
I	Melting brass,	71
II	Melting loss in cupola process,.....	147, 156
III	Melting with oil,.....	16
II	Memorial on grading pig iron by analysis,.....	51
I	Metallurgy, foundry,.....	87
III	Metallurgy in foundry,.....	18

VII.

II	Methods of analysis, standardizing,.....	20
I	Mixing by analysis, value of,.....	27
III	Modern cupola practice,.....	62
II	Moldenke, Dr. R.: Authorized to represent the A. F. A. in Europe,.....	59
II	Moldenke, Dr. R.: Discussion on grading pig iron,	94
I	Moldenke, Dr. R.: Foundry economy,.....	160
III	Moldenke, Dr. R.: Modern cupola practice,.....	62
II	Moldenke, Dr. R.: Report on melting loss in cupola,	147
II	Moldenke, Dr. R.: Secretary's report,.....	8
III	Moldenke, Dr. R.: The engineer in the foundry,..	40
I	Molder, the problem of the,.....	31
II	Molder question, discussion on,.....	108
III	Molding, machine,.....	3
II	Molding machine, discussion on,.....	129
I	Molding machine, the, by S. H. Stupakoff,.....	131
III	Molding machines,.....	56
II	Molding test bars, standard method,.....	28
I	Molding machine, the,.....	121
I	Molding machine,.....	13
I	Molds, heavy, lifting,.....	8
III	Mounting patterns on molding machines,.....	3
I	Murphy, Jas. A.: Value of mixing by analysis,.....	27
I	National laboratory for A. F. A.,.....	28
II	Niagara Falls, visit to,.....	41
III	Office, foundry,	6
II	Officers of A. F. A. for 1901-1902,.....	68
III	Oil for melting iron,.....	16
III	Oil matches,	60
III	Organization of manufacturers,.....	23
II	Pan-American Exposition, visit to,.....	41
I	Patterns, classification of,.....	103
III	Patterns, crooked, straight castings from,.....	13
III	Patterns for molding machines, mounting,.....	3
I	Patterns, insuring,	99
I	Patterns, recommendations for insuring,.....	106
III	Patterns, rubber,.....	24
I	Patterns, value of,.....	99
III	Pattern work, inspection of,.....	43

IX.

III	Patching enameled surfaces,.....	37
III	Pessaur, A. C.: Organization of manufacturers,....	23
III	Philippines, foundries in the,.....	49
III	Pig iron, a crystalline sulphide in,.....	38
II	Pig iron, discussion on grading,.....	75, 163
II	Pig iron, grading by analysis,.....	51
III	Pig iron, machine cast, for foundry,.....	29
I	Pig iron record book,.....	30
III	Pig iron, sampling and grading,.....	15
III	Pig iron, sampling of,	8
III	Pig iron, selling by fracture,.....	46
III	Pipe, German specifications for,.....	15
III	Porter, H. F. J.: Industrial betterment,.....	51
III	Powers, Chas.: Malleable cast iron,.....	68
II	President's report,	6
I	Problem of the mold,.....	31
II	Proceedings of the American Foundrymen's Association,	3, 147, 155
II	Proceedings of the Foundrymen's Association of Philadelphia,	125, 160
II	Proceedings of the German Foundrymen's Association,	123
II	Proceedings of the New England Foundrymen's Association,	163
II	Proceedings of the Pittsburg Foundrymen's Association,	124, 158
II	Proceedings of the Sixth Convention of the A. F. A.,	3
I	Proposed foundry trade school, Mr. West,.....	154
III	Putnam, E. H.: Discussion on foundry trade school,	28
II	Putnam, E. H.: Discussion on grading pig iron,....	97
II	Putnam, E. H.: Discussion on the mold question,	118
I	Putnam, E. H.: Economic status of wages,.....	55
III	Putnam, E. H.: Molding machines,	56
III	Putnam, E. H.: Shop betterment,	5
III	Putnam, E. H.: Shot iron,.....	39
II	Railroad castings, melting loss in,.....	153
II	Ramp, P. R.: Discussion on foundry costs,.....	145
I	Ramp, P. R.: Green sand cores,.....	37
II	Ramp, Senator, address of,.....	35

X.

I	Record book for pig iron,.....	30
I	Relation of laboratory to foundry,.....	19
I	Relative position of employer to employed,.....	168
II	Rice, O. I.: Discussion on the problem of the molder,.....	132
III	Rice, G. D.: Iron foundries in the Philippines,.....	49
III	Richardson, J. M.: Inspection of pattern work,....	43
I	Rossi, A. J.: Effect of titanium on cast iron,.....	45
III	Rott, C.: Baby Bessemer process for foundry,....	34
III	Rott, C.: Malleable castings in Europe,.....	11
III	Rubber patterns,	24
I	Rutile,	51
II	Sadlier, J. S.: Discussion on grading pig iron,....	93
II	Sadlier, J. S.: Discussion on problem of the molder,.....	129
II	Sadlier, J. S.: Discussion on the molder question,.....	109, 114
II	Sadlier, J. S.: In Memoriam,.....	155
I	Sadlier, J. S.: Combustion,	127
I	Sadlier, J. S.: Problem of the molder,.....	31
III	Samples in brass foundry, retaining,.....	41
III	Sampling of pig iron,.....	8, 15
II	Sanitary ware, melting loss in cupola process for,....	152
II	Sash weights, etc., melting loss in,.....	154, 158
II	Schools, foundry, discussion on,.....	60
III	Scotland, foundry industry in,.....	61
III	Scott, W. S.: Cupola practice,.....	67
II	Secretary's report,	8
II	Secretary's report on melting loss in cupola process,...	147
II	Shaffer, F. B.: Discussion on the problem of the molder,	129
III	Shop betterment,	5
III	Shot iron,.....	39
I	Silicon and carbon theory,.....	91
I	Silicon and sulphur in mixing iron,.....	96
I	Smith, D. K.,.....	83
I	Smith, Prof. A. W.....	83
III	Society of German Iron Masters,.....	14
III	Soft metal castings,.....	57
III	Specifications, for gray castings, German,.....	14
II	Specifications for testing cast iron, standard,.....	30

XI.

I	Specialists in the foundry,.....	32
III	<i>Stahl and Eisen</i> ,.....	5
II	Standardizing Bureau, report of committee on,.....	19
II	Standardized methods of analysis,.....	20
II	Standardizing testing of cast iron,.....	23
II	Standard methods of sampling pig iron,.....	85
II	Standard specifications for testing cast iron,.....	30
III	Steel castings, cores for,.....	9
III	Steel castings, properties of,.....	47
I	Steel, Troperas converter process for,.....	109
III	Stockholders, employees as,.....	21
III	Stoermer, Dr. M.: Graphite crucibles,.....	53
II	Stove plate, melting loss in cupola process,.....	151
III	Straight castings from crooked patterns,.....	13
III	Strikes, remedy for,.....	33
II	Stupakoff, S. H.: Discussion on molding machines,.....	129
I	Stupakoff, S. H.: The molding machine,.....	121, 131
III	Sulphide, a crystalline, in pig iron,.....	38
III	Taylor, B.: Foundry industry of Scotland,.....	61
III	Temperstahl,	11
II	Tensile test, standard,.....	31
III	Test for hardness,.....	5
III	Testing cast iron,.....	56
